END OF ADDENDUM

We appreciate your participation in this solicitation.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kathleen A. Bridenbaugh".

Kathleen A. Bridenbaugh
PSA Unit Supervisor

B22.1 General Provide an Erosion and Sediment Control Plan (ESCP) in accordance with the Contracting Agency's ESCP Template and associated instructions. All temporary erosion and sediment controls are shown in this Plan instead of in the Contract Plans.

B22.2 Deliverable Items.

<u>Type of Document</u>	<u>Paragraph</u>	<u>Hard Copies</u>	<u>'pdf' Copies</u>	<u>.dwg file</u>
ESCP				
Draft	B22.1	1	1	1
Final	B22.1	1	1	1

B22.3 Provided Items The Contracting Agency will provide the following:

1. Erosion and Sediment Control Plan Template

A sample Erosion and Sediment Control Plan is available from the Contracting Agency by request.

ARTICLE B23
PLANS, SPECIFICATIONS AND ENGINEER'S ESTIMATE
Task 16

B23.1 General. Provide construction contract documents and other deliverables as described herein. The project design must be a best accommodation of the geographic location and the site specific constraints, as well as the project values and other constraints as defined by the Contracting Agency.

Currently, there are no Standard Drawings sealed by a Professional Engineer available for use on this project. The Contractor is free to use any Standard Drawing that has a Professional Engineer's seal that becomes available prior to project advertising. Otherwise, the Contractor shall either 1) develop their own details for situations usually covered by one of the Standard Drawings or 2) place their own Professional Engineering seal on a copy of the applicable Standard Drawing (applicable for this project only). The Contracting Agency will provide an unsealed copy of all Standard Drawings to be used on the project as requested by the Contractor.

B23.2 ADA Transition Report Data. Conduct an ADA Compliance Investigation using the Contracting Agency provided ADA Curb Ramp Survey Forms. Once the ADA Compliance Investigation is completed, using the ADA Transition Memo template provided by the Contracting Agency, provide information on curb ramp design as needed for a report to the Civil Rights Office.

B23.3 Support Data. Throughout the design phase, provide data in support of the Contracting Agency activities related to the project design. This includes but is not limited to the following.

B23.3.1 Topography Survey Needs Provide a Survey Request form and figure(s) showing where further topographic survey is required in order to design the project or to determine any necessary or recommended property rights acquisitions or alterations to existing utilities. After the initial list is provided, update it as necessary as the design progresses.

B23.3.2 Right of Way Survey Needs Provide a Survey Request form and figure(s) showing locations and areas where survey confirmation of location of the Right of Way is necessary in order to determine the need for additional property rights acquisition.

B23.3.3 Data and Figures required by Contracting Agency Support Groups, for example for environmental permitting or Right of Way negotiations.

B23.3.4 CAD Files with required disclaimers, for use by utility companies or others, as approved by the Contract Manager.

B23.3.5 Cross-sections. Include the following in each cross-section: original ground, the roadway template, right of way limits, grid lines, labels for offsets and elevations, and the roadway station for which it is applicable. Plot the cross sections at a standard scale and with no vertical exaggeration. Include on each sheet the project name, project number, date and review submittal. Submit the half size cross sections on 11" by 17" sheets.

B23.4 Plan Sheets.

B23.4.1 Not Used

B23.4.2 Utility Plan Sheets, if needed, will be provided by others. Incorporate Utility Plans into the Plan set.
